The Halfling Adventurer

Who knows where a hero's spirit will grow? Even the smallest seed can produce the mightiest tree.

The Drow

Drow

When the primal elves chose to take the forms of mortals, they were loyal to gods who reviled each other. The schism led to a conflict the Abyss and her adherents exiled to the Underdark. This banishment again live in peace on Arvandor but did nothing to heal the rift.

The vanquished elves weren't seen or heard from again for centuries in the darkness, absorbing the unhealthy emanations of the Underdark and food, and always beseeching their god for guidance and following worshipers gradually transformed into the drow the cruel, cunning race.

Reflections of Lolth

From the time they're old enough to understand, drow are creatures, for they remain steadfast in their devotion to Lolth. Any creature that isn't a drow is useful only as a sacrifice and spiders that the drow train to patrol their cities and tunnels.

Among these other, lesser forms of life, the elves that live in sunlight are especially despised because they are descended from the primal elves who betrayed Lolth so long ago. First they accepted Lolth's offer of mortality in return for destiny, but then they turned against her in a pathetic effort to win back Corellon's favor. Drow view the elves of the surface world as cowardly children who defy their parents when they're not around but cower in the corner when their parents return, terrified of having their bad behavior found out.

Reverence for Lolth touches every aspect of drow life. All drow

Eladrin

Eladrin are elves native to the Feywild, a realm of beauty, unpredictable emotion, and boundless magic. An eladrin is associated with one of the four seasons and has coloration reminiscent of that season, which can also affect the eladrin's mood.

Autumn is the season of peace and goodwill, when summer's harvest is shared with all.

Winter is the season of contemplation and dolor, when the vibrant energy of the world slumbers.

Spring is the season of cheerfulness and celebration, marked by merriment as winter's sorrow passes.

Summer is the season of boldness and aggression, a time of unfettered energy.

Some eladrin remain associated with a particular season for their entire lives, whereas other eladrin transform, adopting characteristics of a new season.

Overall Rating \u2605\u2605\u2605\u2605\u2606

A classic. If you're old enough to remember \u201cShareware\u201d you're old enough to appreciate this game. Back to the days of DOS. This game still holds all the original charm as the first time I played it. Even the music is still great, nothing feels dated or bad.

If you're looking for a retro game to try, definitely pick this one up. It has enough level, enemy, and weapon variety to keep you interested. Pretty diverse for it's time. Back when Apogee was great!. Overall Score - 9.5

Gameplay - 9/10

Story - 10/10

Duke of Defense is a great Indie game. It is a wonderful Tower Defense game with a quirky Hack and Slash feel. If you wanted the strategy of Tower Defense with an action feel then look no further. Currently, there are eight different towers in the game. You unlock skill points to change the way you progress through the game. It took around six hours for me to beat the game and around eight to ten to 100% the game. Only thing I have yet to manage is beating the bosses without getting hit, but luckily you can 100% the game without doing this. The price tag is acceptable for an Indie game and the amount I spent playing it. The developer, Seabass (The Human), is very responsive in the forums and has responded to feedback already. Duke of Defense has plenty of potential and I would love to see it grow into something more.

Gameplay 9/10

Duke of Defense fills a void that I've desired in the Tower Defense genre while still maintaining that demand for tower placement strategy. The game blends Hack and Slash with Tower Defense. It is a more simple Tower Defense in terms of tower placement. You have trees that you can turn into towers. You'll have to pay gold to build towers, but upgrading them requires you to stand on top of them. If you look underneath the tower you stand on you will see a progress bar and when filled you can upgrade your tower without a gold fee. Plenty of towers are currently in the game, eight in total, most all of them are basic in terms of the Tower Defense genre, i.e. ranged, single target, area-of-effect, slow, etc. You also have the ability to run around the level with your character and strike enemies with your sword. Be careful though, you can get hit by creatures and lose your coins similar to our blue hedgehog friend. I wish there was more mobility in the game like a strafe option, but it works with it's formula. Duke of Defense also features small skill trees to change up the way you progress. Plenty of content to play here and couch coop mode. It took me around eight to ten hours to complete the game and 100% the achievements. If you really enjoy it like I did I'm sure you will be craving more. The game is being released on consoles soon, so maybe one day with a level editor/sharing tool we could have more.

Story 10/10

Duke of Defense is a humorous tale about a knight's rise to the Duke of Defense and his tale of defending the land. It's a Tower Defense game, so myself I'm not expecting a crazy good story. Some games in the genre have tried, but I'm personally not a fan most times. Duke of Defense has cutscenes that go along with the story. I have to say that I laughed out loud a handful of times. You fight goblins and wizards along your journey as the Duke of Defense. You get through it with the help of your friends. Most of them being human friends, all of them having benefits. Not those benefits, get your mind out of the gutter. Play the game and you'll know what I meant.

Sound 10/10

First thing that blew me away with Duke of Defense was the rocking tunes featured in the game. I'm a huge fan of video game soundtracks, so it's nice to hear a great tune in a video game for me. The rest of the sound effects in the game are great. The music and sound effects together blend well to put you in the atmosphere. Great feel for an indie game.

Visuals 9/10

Duke of Defense features beautiful pixel art. Objects become transparent if you place your character behind them, which can be really helpful during fights where you have to dodge attacks. Enemies have visible health bars on top of their heads, but not too much to interfere with seeing the enemies themselves. All kinds of cosmetic heads have been put in the game to customize the

look of your character which can help in couch coop mode. I love the look of the towers and that they look different at max level. All of the level detail is amazing with a few different biomes. There are a handful of cutscenes as well. My only two problems with the visuals are that some boss attacks are the same colors as their indicators and sometimes similar colors on the level floor and the fact that I cannot skip cutscenes and dialog. Ice Wizard is rough, worst part is sitting through the dialog over and over again.. I bought this awhile back but i just started using it. Saw a friend use it and though "what the heck..i want that". SO far its an amazing software. My desktop looks amazing now, im extremely happy i got this. It was worth every penny.

10/10. This game was gorgeous and intriguing from start to finish. Game play was smooth and it isn't one of those where you have to wonder what is supposed to be done next due to ambiguity.. Makes my videocard/fans in my computer make a godawful screeching noise, and the game doesn't allow for any tweaking of video settings to attempt to resolve.. A DLC that accelerates very quickly. Unfortunately, it only has one livery which is the Southeastern yellow/grey livery. If you get the Armstrong Powerhouse sound pack, you can get the Southeastern blue stripe livery and it likely sounds like a Jubilee Line 1996 Stock but it doesn't have the V0 and V1 sounds. Even DPSimulation has the Class 465 Southeastern blue stripe livery (which requires again the AP Sound Pack above which I don't own). Instead, I will have to use the 466s as a substitute.

fly. shoot. shoot more. even more. still even more!

. nice game recommend. An amazing first night playing the game. There is definitely room to grow, but this is such a great start!

Highly recommended for anyone looking for a new style of RTS. If there was one criticism, I would like to see more distinct and interesting units further along. Some of the designs/ voice work seem a bit generic.. i expected this game to be fun i was so dissapointed i love lowrider and lowrider games but this game is mostly about racing

but i'd give this game a decent 6/10. not enough poeple playing it but its a really fun game.. This game is a lot harder than most tower defense games, but it's pretty good for what you payed for it. The only 2 issues if you can call it issues is that each round starts off hard but then gets easier, the opposite of what level curves are and that the tutorial goes through the basics of how to play the game, if they did a tutorial level it would have saved me a few restarts in level 1. Huge pros that I saw this game doing besides PVZ is that it shows the enemies for the upcoming round to prepare yourself which is a nice plus I wish more games did that and a inventory system for your towers.I would recommend this game to any tower defense fan PVZ,BTD,etc.. I have seen Sodapoppin played it on stream and it looked very nice.

I went on the steam page and saw the price. That's the first time I see a simple game and most importantly a GOOD game so cheap ! This game is worth 10 euros / 10\$ at least.

Very nice soundtrack, i recommand to buy the pack game+soundtrack (It also support the game for being cheap i guess)

About the game, the musics are beautiful, you will finish this game in 1h if you're god and 3-8h if you're a normal person. Or you will give up. Yeah this game kinda hard but really good at it. Also the game is gentle and doesn't kill you everytime you miss the perfect spot.

Great game, great soundtrack, low price. What are you waiting for ?
