

Sahaba's Gathering of Thanking Allah for sending the Prophet(ﷺ) .

"Imam al-Nasa'i narrated that Hadrat Sayyiduna Ameer al-Mu'awiyah (may Allah be pleased with them) said,

The Messenger of Allah came to a circle - meaning of his Companions - and said, "What has made you sit together?"

They said, "We sat to pray to Allah and to praise Him for guiding us to His religion, and for blessing us with you." He said, "By Allah, nothing else made you sit together?" They said, "By Allah nothing else made us sit together!" He said, "Know that I did not make you swear on this because I doubted you, but because Gabriel came to me and informed me that Allah (Azza wa Jall) is proudly showing you off to the angels!"

The above hadith is one of the clearest evidences for the permissibility of the Mawlid, and clearly shows the companions gathering together to thank Allah (Most High) and give thanks for blessing them with the Prophet (Allah bless him and give him peace).

Are the Mawlid gatherings not what is being described in the hadith?"

LTS Server not responding to ping I have a server running Ubuntu 16.04 LTS, when I try to ping to it from my laptop, I get PING server.test.com (192.168.1.71): 48 data bytes **server.test.com :Network is unreachable** the ping script works fine, if I use it to ping 8.8.8.8 (Google DNS). I have created the following file to check if a port is closed, but it returns a "Network is unreachable" message: `#!/bin/bash # ping 111.111.111.111 while true;do ping -n 2 -c 4 111.111.111.111 | grep "bytes from" if ["$?" -ne 0];then echo -e "Network is unreachable" exit 1 fi sleep 1 done` Thanks for your help A: It's your firewall settings. `sudo ufw enable sudo ufw allow icmp sudo ufw allow out` and then just the ping command should work. No need to open the port on ufw with that script. If you want to check ufw with the default deny policy, the command is `sudo ufw status LOS ANGELES`

(KABC) -- Los Angeles police on Wednesday released video of a female pedestrian's attempt to rob a Downtown jewelry store. The footage shows a woman walking into the store, at 6th and Hill streets, around 5 p.m. on Nov. 30, carrying a silver necklace and purse. Witnesses told police she looked visibly upset and didn't return her purse to the store. The woman walked back 82157476af
